

Rebuild, Refresh, Renew — St. Margaret Mary Church Renovation

We're excited to share the latest update on our "Rebuild, Refresh, Renew" renovation project! Thank you to every parishioner who has prayed, supported, and encouraged this effort over the years. We know this has been a long journey, and we are truly moving closer to the finish line.

Our plans remain under City review with completion expected by January 31, 2026. Bidding will begin in January 2026, followed by the building permit and move-out process on February 9, 2026. Construction is anticipated to run from February through September 2026. Each of these milestones brings us one step closer to seeing the vision for our renewed worship space come to life.

Below is the finishes board — a preview of the colors, materials, and design elements selected for the renovated church. This reflects months of thoughtful collaboration with our design team, focusing on warmth, reverence, and timeless beauty.

Please continue to pray for this effort as we take these final steps toward construction. Your faith, patience, and generosity are what make this possible.
